DETAILED FINAL ACTION

Acknowledgment

1. Receipt of the amendment and Terminal Disclaimer filed 4/4/06 and 4/13/06 has been acknowledged and entered. Claim 2 has been withdrawn from consideration. The office is withdrawing the double patenting rejection in view of the amendment.

Claim Rejections - 35 USC § 112

2. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claims 1 and 3-8 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claims contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventors, at the time the application was filed, had possession of the claimed invention. Claims 1 and 7 as amended state "elastic member being deformable in accordance with a degree of a received impact to absorb the impact". While the specification only mentions that the elastic portion of the elastic member elastically deforms in the axial direction, whereby the impact can be absorbed, there is insufficient disclosure with regard to elastic member being deformable in accordance with a degree of a received impact to absorb the impact".

Application/Control Number: 10/804,836

Art Unit: 3611

The specification fails to describe how the elastic member being deformable in accordance with a degree of a received impact to absorb the impact. No drawing diagrams are provided. It is not enough to simply outline a concept, but the manner in which the invention is embodied must be disclosed in exchange for the patent protection sought.

Response to Arguments

3. Applicant's arguments filed 4/4/06 have been fully considered but they are moot in view of new ground of rejection.

Allowable Subject Matter

4. Claims 3-6 would be allowable if rewritten to overcome the rejection under 35 U.S.C. 112, 1st paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

Conclusion

5. Applicant's amendment necessitated the new ground of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP. 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).
